

FIFA – SPANDAN'23

RULES & GUIDELINES

There will be 2 events: **1 vs 1** and **2 vs 2**.

Rules followed will be the same for both events.

Tournament Rules* –

- All games will be played on FIFA 23 with stock squads.
- You cannot select any fictional or All-Star teams. Only regular season teams, as installed with the original game can be selected.
- Each round will be a knock-out round.
- Each player can bring his/her own controller.
- If a controller is defective / stops working, the player can pause the game and notify the referee once only. If the player agrees that the problem is fixed, he may not pause again.
- Players are allowed to play with either club or country teams, but games should only be club v club or country v country.
- Both players can select the same team (e.g., Real Madrid). In that case, the “away” player will have to pick the Away Jersey for that team.
- In general, “away” players are responsible for picking the jersey that does not resemble the home team jersey.
- In case of a dispute, the selection of home and away side will be decided via a coin toss.
- In case of a draw, the match will go to extra time (Golden Goal for after Quarter-Finals), then penalties.
- Only the registered members will be allowed to play together (for 2v2 event).
- In case of any dispute, the word of the referee will be final.
